

## WARD 2 / CIRCONSCRIPTION 2

Dario ARELLA

A school is to be the home of a community whose objective is to provide an environment where our treasures of tomorrow can to grow harmoniously into adulthood. The expertise of professional members who work valiantly to achieve this goal is important and undoubtedly present. Professional expertise cannot by itself be enough. The wisdom of the parental experience must be included as a part of the harmonious environment that is to form the fertile ground for the growth of the minds and souls of our youngsters. The task of a school commissioner is to be the messenger of this parental wisdom. It is to listen and to convey effectively this voice. I intend to set up a communication channel that will facilitate the presence of your voice. Your voice is important, it will be heard.

I have worked in industry and in education. I currently work for the EMSB and have already worked for the LBPSB. This will serve me to add perspective to the guiding wisdom of your voice. Let us celebrate the impact of voice with your vote.

Dario Arella, B. Sc., B. Ed.

### Platform:

1. Providing a platform to facilitate a dynamic input from parents into the decision making process.
2. Enhancing the availability of in-school tutorials for students at risk.
3. Implementing a committee to review and maximize the use of available funds.
4. Enhancing French language and mathematical skills proficiency.
5. Using technology while avoiding becoming enslaved by technology.
